82. Within the context of the new IASC Cluster Leadership initiative, UNICEF is actively engaged in the Early Recovery Cluster, led by the United Nations Development Programme (UNDP). Through its sub-leadership role for the Early Recovery Cluster's response in the area of social service delivery, UNICEF aims to establish more transparent accountabilities and better coordinated interventions, in turn increasing the collective ability of the United Nations and non-United Nations humanitarian organizations to improve the timeliness and predictability of an early recovery response.
